About Us

At Kenyon we are known worldwide for our award winning products. Since 1931 Kenyon has been engineering unique designs that have changed the way people think about cooking, while providing exemplary customer service.

Kenyon manufactures all of their products in the US with pride. Every product is inspected and tested to ensure that you receive only the best. All products are backed by an unparalleled 3-year warranty.

ANATOMY OF KENYON GRILLS

Removable Lid

helps maintain heat and keeps food juicy

Non-stick grate is dishwasher safe

Precision control cooks food to the **perfect temperature**

Carrying handles for convenient transport

Concealed heating element eliminates flare-ups

The hidden **drip tray** traps drippings and adds flavor to food

Stainless steel is weatherproof & rustproof

GRILL YEAR-ROUND

Grilling your favorite food has never been easier and safer as Kenyon Electric Grills are flameless and smokeless. Cook delicious meals from the comfort of your kitchen or while relaxing outside.

POWERFUL PERFORMANCE

Cooking grate temperature exceeds 550°F. Achieve the results you want for any kind of food, from seared steaks to tender grilled vegetables.

ENJOY HEALTHY COOKING

Kenyon Grills quickly transfer the heat from the concealed electric element, producing the look and taste of high quality gas grills without any open flames to deposit unwanted material or chemicals onto your food.

GRILLING TIPS

GET A CLEAN START

Routine cleaning after each use is the key to maintaining your grill. Clean grills work better and won't leave a bad taste on food. Before your Kenyon Grill cools, take a damp paper towel and tongs and rub the paper towel back and forth to loosen any leftover residue. For a deep clean place your grate and lid in the dishwasher.

ADDING FLAVOR

Marinades, brines, and rubs are all great ways to add more delicious flavor to the food you grill. Experiment with the liquid placed in your drip tray. Add beer for brats and burgers, wine for steaks and even lemon-lime soda for fish.

TIME IT

Set the temperature control to the desired setting and allow 5 - 9 minutes to preheat before grilling. Food continues to cook after it comes off the grill, so it's best to remove it just before it has reached the desired doneness. Below are the recommended cooking settings:

- Steaks and Burgers: **8 Bars**
- Chicken, Pork and Fish : **6 Bars**
- Vegetables: **5 Bars**

Lid Options
