**PRODUCT CATALOG**

# About Us

At Kenyon we are known worldwide for our award winning products. Since 1931 Kenyon has been engineering unique designs that have changed the way people think about cooking, while providing exemplary customer service.

Kenyon manufactures all of their products in the US with pride. Every product is inspected and tested to ensure that you receive only the best. All products are backed by an unparalleled 3-year warranty.

# Radiant Cooktops

## RIBBON-TYPE ELEMENTS

The special design of the radiant elements directs the heat up through the ceramic glass providing efficient cooking.

## TEMPERATURE LIMITERS

Each element includes a temperature limiter that ensures the safe operating temperature of the ceramic glass top is not exceeded.

## HEAT CONTROLS

When a power level is selected, the element will turn on and "light up". The power setting determines how hot the burner will get and is regulated by either our digital touch control or the analog knob control. These devices ensure a consistent level of heat for exceptional boiling, simmering, and melting.

# Size Options

## 2 BURNER XTRA LARGE

**21-INCH X 17-INCH**

*533.4mm x 431.8mm*

(1) 8-inch Burner and  
(1) 6.5-inch Burner

# Kenyon PUPS

## POP UP POTHOLDER SYSTEM

Keep pots safe and secure while underway using a very innovative, patented design. Gain valuable countertop space as obtrusive pot rails are no longer needed.

### **UP POSITION**

Press the soft bumper down then release and a post "pops" up **.6 inches** (15mm) to hold your pot securely in place.

### **DOWN POSITION**

When you have finished cooking and the glass has cooled, press the soft bumper down and it will lock in place.

# Size Options

## 3 BURNER
